

The 3rd Shanghai Assembly on Cosmology and Structure Formation

Wednesday, November 19, 2025

Cosmology 4 (11:05 AM - 12:30 PM)

time	[id] title	presenter
11:05 AM	[76] Determination of cosmological parameters by DES using type-Ia supernovae, BAO, and weak lensing observables	Prof. MIQUEL, Ramon
11:35 AM	[7] Constraining Baryonic Feedback with Baryonification: Insights from kSZ, X-ray, and Weak Lensing	BUCKO, Jozef
11:55 AM	[68] Joint cosmological fits to DESI DR1 full-shape clustering and weak gravitational lensing in configuration space	SEMENAITE, Agne
12:15 PM	[52] Joint analysis of small-scale galaxy clustering and galaxy-galaxy lensing from BOSS galaxies	GAO, Wenhao
