

The 3rd Shanghai Assembly on Cosmology and Structure Formation

Tuesday, November 18, 2025

Galaxies 2 (9:00 AM - 10:35 AM)

time	[id] title	presenter
9:00 AM	[71] A 13-Gyr view of galaxy growth and baryon cycle with JWST 3D Spectroscopy	WANG, Xin
9:30 AM	[8] From Feedback-Free Starbursts at Cosmic Dawn to Quenching at Cosmic Morning	LI, Zhaozhou
9:50 AM	[2] Rethinking Galaxy Evolution: A Multidisciplinary Perspective via a Simple Growth Model	Prof. KATSIANIS, Antonios
10:05 AM	[25] SE3D: a novel approach to self-consistently model panchromatic, spatially resolved galaxy observations	□□, □
10:20 AM	[43] Interaction-induced Star Formation in Galaxies: Centrally Concentrated HI Distribution and Dependence on Morphology of Companions	□, □□
